HUMAIRA SAIFI

Founder of Saifi Coding Academy

ABOUT ME

Profile

Humaira Saifi is a dedicated Data Scientist and passionate technology educator with hands-on experience in both European industry and academia. Through persistence and hard work, she built her expertise from the ground up—from academic foundations in Kabul university of Afghanistan to advanced studies of Master in Germany, and now professional roles in German tech and higher education.

Founder

She is the founder of Saifi Coding Academy, a YouTube-based educational initiative focused on providing free, practical, and accessible coding instruction to help learners worldwide launch tech careers. and professional experience at Bundeswehr Deutschland, Humaira combines rigorous analytical expertise with a passion for accessible, high-impact education.

ACADEMIC & PROFESSIONAL JOURNEY

- | | |
|--|--|
|  Bachelor's in Computer Science – Afghanistan |  Founder & Lead Instructor :Saifi Coding Academy (2025–Present) |
|  Master's in Data Science – Universität Neubrandenburg, Germany |  Technical University of Berlin – Completed long-term certified training in advanced programming and software engineering methodologies |
|  Advanced Training & Certifications | |
|  Data Scientist – Bundeswehr Deutschland |  Technical University of Munich – Participated in specialized courses and certification programs in Data Science and Artificial Intelligence |
|  5+ Years in Web Development & Data Science across Europe | |

SPEAKING & MOTIVATIONAL LEADERSHIP

Brief

As a **TEDx Speaker** and community mentor, Humaira is recognized for:

Points

- Delivering **keynote talks** on tech accessibility, women in STEM, and digital empowerment
 - Creating **motivational learning environments** that build confidence alongside skill
 - Framing education through **perseverance, purpose, and possibility**
 - Mentoring students with the mantra: "Your background is your strength, not your limit."
-

Delivery

Her speaking style merges personal narrative with practical guidance, leaving audiences inspired and ready to act.

MISSION WITH SAIFI CODING ACADEMY

Main Focus

"To provide free, high-quality, and practical tech education to anyone with an internet connection and a willingness to learn."

The academy operates primarily through **YouTube tutorials**, where Humaira shares:

- Step-by-step coding projects
- Career guidance for breaking into tech
- Real-world examples from her own industry experience
- Tips for learners from Afghanistan and similar backgrounds

Core Philosophy:

Tech education should be **free, clear, and job-focused**—no fluff, just skills that employers want.

CURRENT TEAM & COLLABORATION

Humaira leads **a small, dedicated team of 5 professionals** who collaborate remotely on:

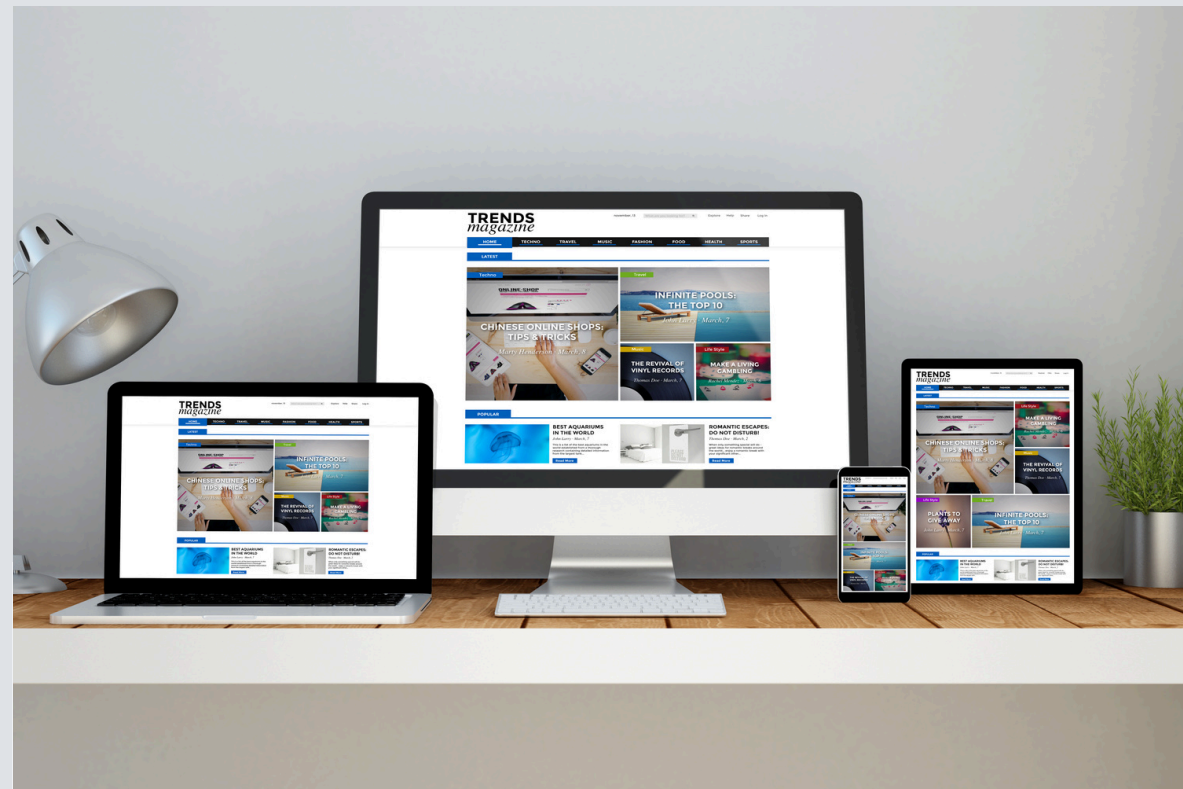

**Educational Content &
YouTube Channel
(Humaira Saifi).**

- Producing YouTube tutorials in Dari
- Student support and community interaction
- Curriculum planning for future courses

CURRENT TEAM & COLLABORATION

Humaira leads **a small, dedicated team of 5 professionals** who collaborate remotely on:

**Web & Software
Development Projects**

- Building websites and web applications for international clients
- Using modern stacks: HTML/CSS, JavaScript, React, Node.js, Python
- Designing project-based curricula that build confidence

TEAM ETHOS:

Quality over quantity. Every tutorial and project is crafted with care to ensure it's understandable, practical, and professionally relevant.

CURRENT REACH & COMMUNITY

Primary Platform:

YouTube channel – growing global audience

Learners From:

Afghanistan, and all Persian speakers

Mindset: Hands-on, hard work, and learn-by-doing—no shortcuts

Content Languages:

:Primarily Dari and English

Format:

Free video tutorials, downloadable resources, community Q&A

FUTURE PLANS (REALISTIC & ACTION-ORIENTED)

SHORT-TERM (2026)

- Grow YouTube channel to 10,000+ subscribers.
 - Release 3 complete project-based courses (Web Dev, Data science, AI)
 - Develop a free resource hub with cheat sheets, templates, and project files
 - Host live Q&A sessions for students
-

FUTURE PLANS (REALISTIC & ACTION-ORIENTED)

LONG-TERM VISION

- • Keep core content 100% free and accessible
 - Build a strong community of supported, job-ready graduates
 - Continue balancing education with real-world client projects
 - Stay true to the mission: empower through practical skills
-

SPEAKING & TRAINING BACKGROUND

- Conducted technical seminars and workshops at Technical University of Berlin and Munich
- Guest trainer for student-focused tech programs in Germany
- Regular industry-academia bridge sessions on data science and web development
- Active participant in tech education panels and community events

CONNECT & COLLABORATE

HUMAIRA AND HER TEAM WELCOME:

01

Content collaborations
with fellow educators

02

Real-world project opportunities in web development

03

Feedback and suggestions from students

04

Support in spreading free tech education

A MESSAGE FROM MY SIDE

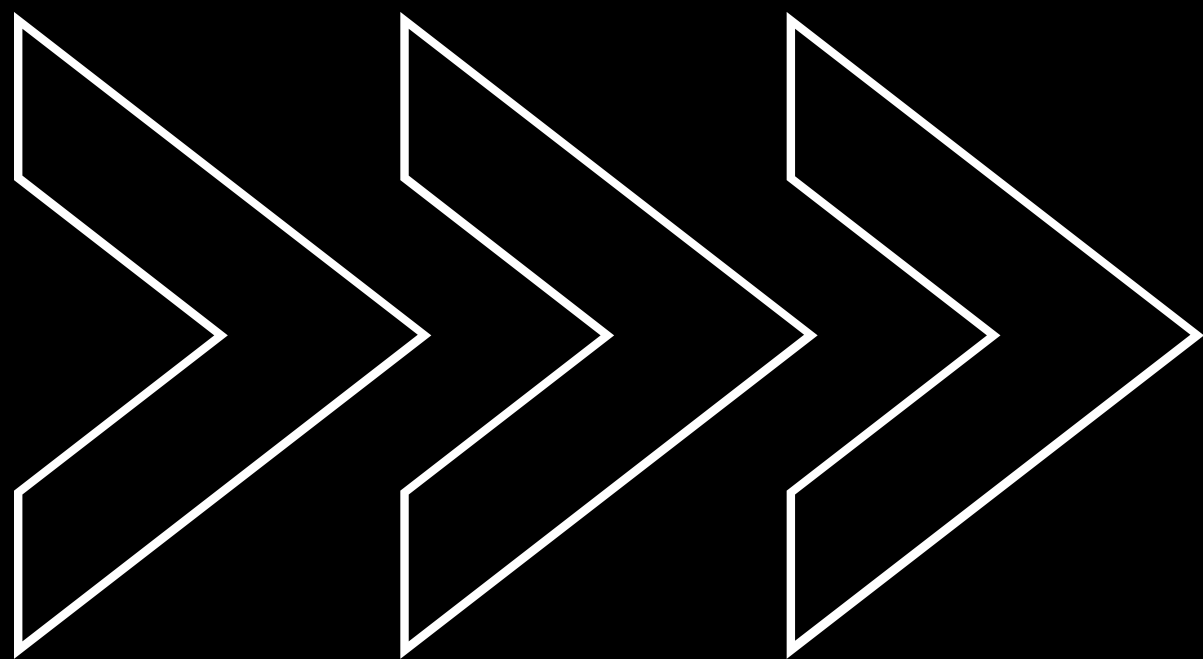

“I speak on stages and teach online for one reason: to show you that your dreams are valid and your potential is unlimited. From Kabul to Berlin, I’ve learned that opportunity isn’t about where you start—it’s about the courage to begin. “My journey wasn't easy studying in Kabul University of Afghanistan, working through university in Germany, and now working in office as a data scientist and teaching online. I created Saifi Coding Academy so that your path can be a little clearer, a little simpler, and a lot more guided. You don't need a fancy degree to succeed in tech. You need persistence, practice, and the right guidance. Let’s build not just code, but confidence, community, and a brighter future—together.” Learn with purpose. Build with courage. Grow without limits. Join. Learn. Build. Repeat.

SAIFI CODINGS

Learn with purpose. Build
with courage. Grow
without limits.
